

Want to Improve the performance of your central heating system by protecting it from dirt & sludge?

## Upgrade Today - Install a **MAGNABOOSTER<sup>2</sup>**

The installation of a SpiroTrap MagnaBooster<sup>2</sup> prevents the build up of dirt contaminating your central heating system and ensures that it is operating at its maximum efficiency.

- ✓ Reduces Energy Consumption and Costs.
- ✓ Reduces System Wear and Tear.
- ✓ Helps protect and prolong the life of your boiler.

Dirt is trapped as it circulates around the heating system.

The magnet instantly boosts the removal of any magnetic dirt.

Dirt and sludge is easily removed from the system by opening the release valve.

# Features and benefits of the MAGNABOOSTER<sup>2</sup>

Highly recommended for all types of boilers, especially high efficiency boilers.

- ▶ Unique dual action, automatically and continuously removes both magnetic and non-magnetic dirt from the heating system.
- ▶ Proven to improve Energy Efficiency by independent testers - BSRIA & TNO.
- ▶ Helps to reduce running costs.
- ▶ Helps to protect and prolong the life of components such as the boiler and radiators.
- ▶ Helps to reduce nuisance call outs by eliminating problems caused by dirt.
- ▶ Slim design fits neatly on any pipework.
- ▶ Easily cleaned during the heating systems annual service.
- ▶ Simple and easy to install.
- ▶ Guaranteed for life of the boiler to a maximum of 20 years.

## Super Slimline Design

Ask for a demonstration of the MagnaBooster<sup>2</sup> or a quote for one to be fitted to your heating system.
